

Sustainability Update – October 2025

We continue to maintain our 5-star Sustainability rating through ResourceSmart Schools (RSS). We had notification on Friday 5th September that the RSS modules will now be accredited for 5 years rather than 4 years. Clarification came through regarding the Waste module.

Accreditation is as follows:

- Core module due in September 2026
- Waste module December 2026
- Water module – August 2028
- Energy module – March 2029
- Biodiversity module – August 2030.

Biodiversity module

Will participate in the Aussie Backyard Bird Count from 20th – 25th October.

Waste Module

The waste audits continue for a couple more weeks, continuing to support students in knowing the correct bin for the particular waste. The new bins seem to be working well, and we will continue to monitor this.

Water Module

Water audits of Kororoit Creek will take place once the waste audits are completed. The idea is to collect samples from Kororoit Creek and check the health of the water by determining the water bugs in the water.

'WOW' Wednesday and Fruity Friday

These days continue to be run each week by the house captains. House captains are responsible for giving out house points and collecting data on these days.

Sustainability Network Meeting

The meeting will take place on Monday 1st December 2025. Brimbank Council are organising it. Albion PS is the venue.
