

School Improvement

Albion Primary School applied for, and received a *Buddy Bench*.

We received it through the Coles Sustainability4Schools program for demonstrating what we, as a school, are trying to do to improve and protect the environment.

The creation of the garden spaces, bee hotel, indigenous planting, waste reduction, utilising the six Rs - Rethink, Reuse, Recycle, Repair, Reduce and Refuse - the school's participation in Clean Up Australia, Oz Harvest, Resource Smart Schools, Eco Schools, Litter Legends and Landcare all helped to support our application in how we are working towards becoming a more sustainable school.

Also, if you are walking around the school, have a look and see if you can spot the bird/possum boxes around the place.
